"Tail Gate News"

the "PRESIDENTS CORNER"

Spring is here and our rains have all but ended, although I really don't think they ever got started. Other than a few windy days, the weather has been good with a lot of members coming out to enjoy a day of flying.

Over the past several months I have noticed a few things that should be addressed for safety concerns. We are all aware of the altitude restrictions and everyone is doing a

good job on that issue. But what I noticed is with "Spotters", some are not checking the sky to the "South" which is normally where a full-size aircraft enters the pattern. Also spotters should check with all of the pilots on the flight line before allowing a car on the runway.

Pilots must also check with spotters and other pilots before taxiing out for take-off or before walking out onto the runway.

Remember that there is no flying over the runway other than approaches and landings. Also let the other pilots on the flight line know your intentions if you are landing, doing approaches or doing touch & go's.

This is just being courteous and a little communication can go a long way in preventing an accident.

So fly safe and enjoy,

Joe

"FUN FLY"

Our first Fun Fly of 2007 was held on Sunday, March 11th. We had 8 NCCC members competing for the top honors of the day and also some cash prizes.

We started out with the timed "Taxi" event, defending "Fun Fly Champion" Bob Martz took that one by 8 seconds over Calvin Yun.

Next was the "Loop & Roll" which Manual Gonzalez completed the take-off & 3 loop/roll combinations in 14.5 seconds taking that one

away from Bob by a half second.

Next Ken Bradley stepped up to the plate on the "High/Low Speed Differential", with a fast pass of 4.5 seconds and a slow pass of 22 seconds, a difference of 17.5 seconds which was 3.5 seconds better than his closest competitor.

Bob then regained his composure and went on to dominate the "Touch and Go" event with 10 touches in 2 minutes and the "Spot Landing" with 3 perfect

center box landings.

When the last plane landed.
1st place went to Bob Martz, Calvin and Manual tied for **2nd**.
Ken Bradley **4th**
Brian Hildenbrand **5th**
Donna Jones **6th**
Larry Hildenbrand **7th**
Rick Jones **8th**

Well guys and girls get some practice in, our next Fun Fly is Saturday, May 5th and Bob said he's ready for you!!!

See you there, *Joe*

be with You”**

Fun Force Pylon Race

After the Fun Fly ended Rick Jones put on the “Fun Force Electric Pylon Racing” demo. The event went well for most of the racers but for some it was time to re-build their aircraft.

I know it was just a demo but some of those guys (I should say girls) were out for blood! Donna Jones was on a mission to show the guys just how you are suppose to turn around a pylon.

Donna not only took 1st in the heat races, but also went on to win the main event.

I did hear that when they got home Rick tried to put Donna's motor in his plane, probably not a good idea Rick!

The 1st scheduled “**Fun Force Pylon Race**” is coming up on **Saturday April 7th at 11am**. So you still have some time to get a plane ready to fly and join in the “FUN”

For info on the event you can contact Rick Jones at 466-2525 or email to:
